WORK EXPERIENCE

Health Center – Santo Angel Central
Student Work Immersion
2023

- Assisted in recording and organizing patient schedules, gaining experience in data management and documentation.
- Operated basic medical equipment and observed structured processes, strengthening adaptability to technical tools and procedures.
- Supported staff in routine tasks (e.g., blood pressure monitoring, patient tracking), developing attention to detail and problem-solving skills applicable to technical environments.

PORTFOLIO

Passionate 3rd-year Computer Science student committed to continuous learning and skill development, with a strong interest in applying theoretical knowledge to practical projects. Driven to contribute innovative ideas, deliver quality solutions, and enhance both technical and professional capabilities.
